Local Educational Agency (LEA) Name: Assurance Learning Academy

CDS Code: 19 75309 0127100

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: Michelle Berry, Area Superintendent

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Assurance Learning Academy expects to receive in the coming year from all sources.

The total revenue projected for Assurance Learning Academy is \$42,707,458, of which \$39,861,398 is Local Control Funding Formula (LCFF), \$2,446,185 is other state funds, \$ is local funds, and \$399,875 is federal funds. Of the \$39,861,398 in LCFF Funds, \$9,948,898 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Assurance Learning Academy plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Assurance Learning Academy plans to spend \$42,063,635 for the 2019-20 school year. Of that amount, \$41,973,335 is tied to actions/services in the LCAP and \$90,300 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Audit fees and legal fees.

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Assurance Learning Academy is projecting it will receive \$9,948,898 based on the enrollment of foster youth, English learner, and low-income students. Assurance Learning Academy must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Assurance Learning Academy plans to spend \$9,948,898 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Assurance Learning Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Assurance Learning Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Assurance Learning Academy's LCAP budgeted \$9,544,850 for planned actions to increase or improve services for high needs students. Assurance Learning Academy estimates that it will actually spend \$9,338,938 for actions to increase or improve services for high needs students in 2018-19.

The difference between the budgeted and actual expenditures of \$-205,912 had the following impact on Assurance Learning Academy's ability to increase or improve services for high needs students: The 2018-2019 Original Budget Projection for ADA was 3,038, but the actual ADA for P2 was 3,038. High needs students continued to receive increased or improved actions and services, as described in the LCAP, uninterrupted throughout the year. The school fully implemented its high quality tutoring program, counseling, student retention support, as well as social-emotional and academic interventions for high needs students.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

Assurance Learning Academy is a public charter that serves a diverse student community with the mission of engaging students in learning, who are no longer enrolled in a traditional classroom program, or who prefer a personalized learning education in an alternative setting. Our goal is to successfully prepare students for work or college-readiness through our integrated and personalized program of job readiness coursework and standards-based curriculum. Some students need the flexibility of an independent study model to meet family obligations, such as work or child care needs. Many of our students reflect a diverse community with often low-income and English as a second language as a barrier to academic success. Some students may have been unsuccessful in the traditional school setting and simply seek an alternative choice in curriculum programs. The school offers alternative choices through site-based learning, independent study, and distance learning to enable students to acquire the knowledge necessary to make a difference in their lives.

Added to meet federal requirements for school improvement:

The school has been identified for Comprehensive Support and Improvement (CSI) under the federal Every Student Succeeds Act (ESSA), because the single year cohort graduation rate was below 67% for a two-year average (2017 & 2018). Through a collaborative process involving parents, students and staff, the school developed improvement strategies after doing a school-level needs assessment, determined evidence-based interventions, and examined the program for any resource inequities. Additional details of this process are described in the Comprehensive Support and Improvement section of the LCAP.

As an alternative school under DASS, the school specifically seeks out students who are at risk of not graduating high school through the traditional high school setting. In addition, the personalized

learning program developed is unique to each student and is specifically designed to create an optimal path toward graduation. The independent study model assigns each student a supervising teacher who develops a close relationship with each teacher and that teacher is supported by all the other teachers on the staff as the need arises. The identification of the school for CSI status under ESSA was not attributed to resource inequities but in fact was attributed to the new way in which DASS school's graduation rates would be calculated under the new state and federal accountability systems. Analysis of data around graduation rates and student placement led to the actions described in this plan, which were implemented prior to CSI identification and have already resulted in positive increases in the graduation rate. The school will monitor and evaluate the effectiveness of their improvement plan throughout the school year. Furthermore, because the charter school accepts no federal funds and did not accept any CSI funding all the actions taken will be paid out of LCFF funds.

Story Continued:

The school provides a diverse, student-centered environment in which all students are held to high academic and behavioral standards. The school also emphasizes increased parental involvement, more one-on-one teacher and student interaction, student-driven participation in the learning process, technology access, varied learning environments, and choices in curriculum programs. Our personalized learning model is tailored to the needs and interests of each individual student. It is a combination of the best of home schooling and resource center based classes. Personalized learning is dedicated to developing personalized learning programs for each student. Its intent is to engage each student in the learning process in the most productive and meaningful way to optimize each student's learning potential and success. It allows the school to combine multiple assessment levels of student academic achievement through the regular recording of detailed learning records, compiling student work samples, and conducting annual state-mandated testing programs. The school offers this personalized learning option for students with the ultimate objective of enabling pupils to become self-motivated, competent and lifelong learners.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

The Local Control Accountability Plan (LCAP) provides funds for helping high needs students with socio-emotional support, academic interventions, counselling and student activities. Students have access to a robust tutoring program that supports their learning. Targeted academic interventions help close skill and knowledge gaps ensuring that students become competent graduates. The following LCAP Goals support our low income, English Language learners and foster youth:

Goal #1: Increase student retention.

Goal #2: Increase credit completion.

Goal #3: Increase students' computer literacy by completing an online course.

Goal #4: Increase student career and college-readiness.

Goal #5: Increase stakeholder engagement.

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

We are a Dashboard Alternative Status School and this is the first year for the school receiving a dashboard report. There were some indicators that were not calculated because there was not two years of data which is required in order to make a calculation for growth. Performance indicators from the California School Dashboard shows the following:

Suspension Rate was blue. This is indicative of the quality school climate at the school.

We met standards for the following indicators: Parent Engagement, Local Climate Survey, Access to a Broad Course of Study, Basic Teacher and Instructional Materials, and Implementation of Academic Standards.

We have developed an internal data collection system that aligns with the 8 state priorities and our LCAP goals. The school data demonstrates that we have grown in the following areas:

- English Learner reclassification rate increased from 8% to 14.4% and is near the CA average of 14.6%.
- Our drop out rate decreased to 8.2% as a result of our staff and teacher interventions.
- The graduate numbers increased to 544 students and will grow through the year.
- Results from the school climate survey demonstrated that students feel safe and connected at school.
- We increased our participation in the Career Technology Education program.
- The number of students enrolled in our online program increased and their course completion rate increased.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The school was identified for Comprehensive Support and Improvement because their two year average was below 67% for the graduation rate. . The two year average graduation rate for the school was 65.5% which is below the threshold of 67% and therefore the school identified for Comprehensive Support and Improvement under federal law. The state indicator for performance on graduation was “Red” on the Dashboard this year. The graduation rate was minus .8% from the previous year, which gives it a red status.

The California School Dashboard indicators that are in the Red or Orange are the following:

The College/Career indicator is red. We are looking into options for dual enrollment for our students and we are increasing our tracking of students completing a-g course work.

The English Language Arts indicator is orange. We are looking into possibly hiring a small group instructor to support our 11th graders in their efforts to pass the CAASPP.

The Mathematics indicator is orange. We are looking into possibly hiring a small group instructor to support our 11th graders in their efforts to pass the CAASPP.

Our internal data collection and reporting system uses metrics that are aligned with state indicators and local performance indicators. We regularly monitor and evaluate our identified outcomes, so that we can make program adjustments in areas that require improvement. The school data demonstrates that we will need to take additional action in the following areas:

- Although our credit completion increase by just .05, we expect credit completion to continually improve. One step we could take is to build on our incentive program. We will work to increase the interest and participation of students in field trips, activities, sports and events at school, so that they feel part of a high performing learning community.
- Our attendance rate was 78.59% this year and last year it was 88%. This is below our benchmark of 85%. Although implementation of our planned actions and services was on-going, we experienced a decrease in attendance. To address this we will make sure that students have more buy-in to the incentive programs that connected them to school. If possible, we would like to hire an additional SRS.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

The California School Dashboard shows that there were no groups that were two or more performance levels below the "all student" performance. They were all in the red, because our students score at a 5th grade math and reading level and the CAASPP is an 11th grade summative test; therefore it is not a match for our students capacity. Many of our student groups did not receive a color due to the groups not having enough students for a valid calculation.

- Our special education students graduated at a rate of 86.6%, but our homeless and English Learners graduated at 68.1% and white students were 62.9%.
- The All Student group for graduation was 64.4%. Our socioeconomically disadvantaged students were in the red and graduated at a 70% rate, as well as Hispanic students

graduated at 68% and were in the red. African American students were 76.4% and in the orange. Other student groups did not receive scores, because there were not enough students to make a valid calculation.

- The average score for 11th graders in ELA CAASPP was 65 points below standard and the lowest student group was students with disabilities at 85.5 points and English learners with 126 points below the CA standard. This is because we serve students who are traditionally 3-4 grade levels behind in their schooling. White students scored 100 points below standard and African American students scored 110 points below standard. Socioeconomically Disadvantaged students and Hispanic were both orange.
- The average score for 11th graders in Mathematic CAASPP was 181 points below standard and the lowest student group was students with disabilities at 225 points an English learners with 215 points below the CA standard. This is because we serve students who are traditionally 3-4 grades levels behind in their schooling. White students scored 146 points below standard and African American students scored 198 points below standard. Socioeconomically Disadvantaged students scored 184 points below standard and Hispanic students scored 182 points below standard and both groups were red.

We plan to monitor students early and often so that we can be proactive in responding to student academic needs. We have teachers and tutors who are able to do this. We also plan to do the following:

- Provide support staff to work with students falling behind on a regular basis and address their specific needs.
- Ensure students in need participate in tutoring with a tutor they can connect to regularly.
- Promote participation in small group instruction when possible.

Graduation data analysis over two years, reveals that African American students and students with disabilities and white students all were above 70%. There was a gap of 7-14 percentage points between these groups and low income students, English Learners, Hispanic and white students. Lastly, in many cases there were not enough students to report a color.

OVERALL 2 Year Grad Rate average was 65.5%

| Graduate Data | 2016-2017 | 2017-2018 | Current Status | Progress |
|--|----------------------------|------------------|-------------------|---------------------|
| Increase Graduation Rate - DASS 1 Year Cohort | 66.7% Annual | 64.4% Annual | Red 64.4% | Maintained -2.2% |
| STUDENT GROUPS FOR 2017-2018 | | | | |
| Student Groups | English Learners: | Low Income | Foster Youth | Homeless |
| Indicator Color | 68.1% No color | 64.1% Red | 70% No color | 70.9% No color |
| Student Groups | Students with Disabilities | African American | American Indian | Asian |
| Indicator Color | 86.6% No color | 76.4% Orange | Less than 11 | Less than 11 |
| Student Group | Filipino | Hispanic | Two or More Races | White |
| Indicator Color | Less than 11 | 62.2% Red | 84.6% No color | 62.9% No color |

The CDE will not report performance scores for a group with less than 11 for privacy. If a group has a percent, but no color, then there was not enough students in both years to calculate a growth rate which would yield a color.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

Assurance Learning Academy

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

The school is a DASS (Alternative) school and was identified for CSI because the one-year graduation cohort rate, over a two year average, was below 67%. After examining the data, the school had shown a -2.2% decrease in graduation rate. Initiatives implemented prior to the CSI identification had already had a positive effect with an improved dropout rate, and would be continued this year. The focus of the data examination was the one-year graduation rate and the correlation to the proper grade level identification of incoming students according to the number of credits received prior to enrollment. Both classified and certificated staff involved in the intake of new student enrollment were involved in the analysis of the data.

Needs Assessment:

In the spirit of continuous improvement, we used this as an opportunity to examine the school program. For the school needs assessment, we used the resource provided by the Los Angeles County Office of Education, and examined both quantitative and qualitative data. Graduation data was disaggregated by student groups, as well as attendance and drop-out data. As a collaborative

group of stakeholders, which included parents, staff, students, ELAC and the leadership team, we used a professional learning community protocol to drill down on data and elicited productive conversations around graduation. We reviewed the LCAP and 8 state priority data, as well as School Dashboard and WASC data. Internal learning plans and student contact information, as recorded in SIS, were also examined.

In response to the analysis, new procedures were developed for intake of new students and the examination of their transcripts. The one-year cohort rate calculation depended heavily on the students who had been identified in our system as 12th grade students for the given school year. Prior to this methodology there was not great emphasis placed on student placement in a grade level according to the credits earned prior to their enrollment into our school. Students were predominately placed into a grade level according to their chronological age. Staff in discussing this shift made it clear that the school would be placed at an extreme disadvantage if students who were not close to earning enough credits for graduation were placed in 12th grade simply because of their age. Staff developed a new system to ensure that all staff connected with student enrollment would place students into the grade level based solely on credits earned at the time of enrollment and that students already enrolled would not be advanced in grade level unless the appropriate number of credits were earned in the prior year.

Evidence-Based Interventions:

We used the following evidence-based research to help guide our analysis of strategies to improve graduation. We considered the following:

- Evidence Based Resources Keeping Students on Track to Graduation (2012) – Center for Equity and Excellence in Education (LACOE Resource)
- Department of Education: Using Evidence to Strengthen Education Investments (2016)
- What Works Clearinghouse: The Path to Graduation materials:
<https://ies.ed.gov/ncee/wwc/FWW/Results?filters=,Path-to-Graduation>. WWC Evidence Review Protocol for Dropout Prevention Interventions (2014)

The research-based strategies we selected were to provide one-on-one attention, positive social incentives for good attendance, and data tracking by a team of teacher/counselor and student retention manager.

Resource Inequities: We are a charter school and are not required to do a resource review.

We did however, use the inequities rubric, provided by the Los Angeles County Office of Education, and considered the following for any identifiable barriers to:

- Access to Highly Qualified Teachers
- Access to Counselors
- Access to Student Retention Services
- Access to Tutors
- Access to interventions both socioemotional and academic
- Access to incentives for attendance, graduation, and retention
- Access to support for high needs English Learners, foster youth, special education, homeless
- Access to technology and instructional materials

The very structure of the school program ensures that all students enrolled in our program have access to the same support from administration, counselors, tutors, teachers and support staff. In addition, the personalized learning program developed is unique to each student and is specifically

designed to create an optimal path toward graduation. The independent study model assigns each a supervising teacher to each student, who develops a close relationship with their teacher and all staff support that student if a need arises.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

The school has a process for continuous improvement and we will continue to monitor the placement of incoming students to insure proper grade level placement and the correlation to the one-year cohort graduation rate. Since the CSI status of the school was based on this one indicator, it will be the sole measure of success for the improvement plan. Since each student is assigned one on one, time with an individual teacher all students who are identified in the system as 12th graders are monitored closely by their teacher for progress toward graduation. In addition, counselors monitor all seniors for credits earned.

population, because in our experience, these students have the greatest risk for poor attendance which leads to the loss of credit. The actions and services listed below will result in improved expected outcomes listed above for all students and in particular the unduplicated student population.

Increase academic and social/emotional support services for low income, foster youth, and English Learners:

Tutors are available to students during school hours.

The SRS has provided assistance to students who have had difficulties attending school.

Counselors have been available at every center to assist students.

A variety of incentives were employed, including snacks for students attending school.

Students receive transportation assistance if needed through the local public bus service.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

We have done well in implementing the actions and services in this goal, such as having counselors and SRS's effectively helping students. Counselors and SRS's do home visits. Reaching and connecting with all sub-group students is still a persistent challenge. Providing bus tokens and transportation for students was very helpful.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Our retention rate is relatively high and consistent. Although implementation of our planned actions and services was on-going, we saw a decrease in attendance this year. We could do more to increase buy-in for student incentives.

Describe the overall implementation of the actions/services to achieve the articulated goal.

We have done well in implementing the actions and services in this goal, such as having tutors and intervention teachers effectively helping students. However, meeting the academic needs of all sub-group students is still a persistent challenge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Our graduation numbers increased compared with last year. The one year cohort percentage of seniors graduating did decline. As a result of our effective implementation, our average credit completion rate has been consistent. Read 180 was very helpful in identifying students learning and then intervention for their literacy skills.

Describe the overall implementation of the actions/services to achieve the articulated goal.

We have continued to improve in implementing the actions and services in this goal, such as having teachers enroll students in an online program and providing tutors to help support the students. However, meeting the academic needs of all sub-group students is still a persistent challenge. It's a challenge to ensure that students enroll in an online class when they complete orientation.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Our online enrollment has significantly increased. Our completion rate increased compared to the previous year. There are now multiple pathways for students to access support for the online education curriculum and that increases the levels of participation.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Career Technology Education program has been growing in its offerings and participation is increasing. We expect all of our students to take the Career Readiness course. It is still a challenge to enroll sub-group students in high numbers, but we continue with our outreach and career planning efforts. We had additional field trips, along with career and college activities this year. Also, The small classroom option, like the CTE programs, has helped the quality of the program and we hope to build upon it next year.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

As a result of our implementation, the enrollment in CTE courses and Career Readiness course has increased. The percentage of students with CTE in their Academic Plan has also increased, because teachers promote those courses for students. Course completion has also significantly improved as students' interest and engagement are elevated by this course work.

Describe the overall implementation of the actions/services to achieve the articulated goal.

This year there was a good amount of participation in the school awards program, parent conferences and ELAC meetings. Parents were communicate with through flyers and notes home. Our community liaison provided added value in community and parent outreach, but it is still a significant challenge to effectively engage all of our parents. We continue to employ multiple methods to communicate school activities through Parent Square, translations, flyers, and engaging activities.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Overall, we met expectations in all of our metrics for this goal. As a result of our implementation this year, we saw an increase our English Learner Parent Advisory and input into the school program. The number of participants in school activities such as Open House and Awards was increased this year. Parents expressed that the feel encouraged to participate in the school activities.

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

ENGAGEMENT FOR COMPREHENSIVE SUPPORT AND IMPROVEMENT PLAN:

In order to meet the requirements of the Comprehensive Support and Improvement process, we met with parents, staff and students on June 4th and engaged them in the process of developing a plan for improvement. We presented the Dashboard data and local data, discussed possible reasons for our results, and selected three evidenced-based strategies directed at improving our graduation rate.

Parents provided the following consultation into the plan:

- More counseling and orientation for students and one on one with students
- Increase incentives to motivate students to excel
- more communication

The staff provided the following consultation into the plan:

- student/family conversations, one-on -one regarding graduation to 11th graders
- More counseling to monitor students and track their progress
- Incentives for students
- coming in more days of the week

The students provided the following consultation into the plan:

- more incentives to increase attendance like clubs and art classes, sports and field trips
- surprise activities during school hours
- more options for coming in during the week
- motivational speeches
- more counseling options
- more school activities and trips

Through the stakeholder group process, these three evidence-based strategies were selected: one-on-one attention, social incentives for attendance, and early and frequent monitoring of student progress for early intervention. These strategies have been added to LCAP in Goals 1 and Goal 2 for year 3, 2019-2020.

ENGAGEMENT OF SPECIAL EDUCATION SELPA SUPPORT:

At this time, our charter school does not take Title I funds, therefore we are not required to follow the additional LCAP requirements including consultation with the SELPA. However, we have a good partnership with our SELPA administration and the following collaborative activities have had a positive impact:

- Dropout (and Graduation) data for special education students are reviewed in a collaborative process with the El Dorado Charter SELPA.
- Staff training related to special education students is provided by the El Dorado Charter SELPA as needed and requested.

On October 16th, 2018, the Parent Advisory Committee and English Learner Advisory Committee met and learned about the LCAP goals and provided input into the actions and services for the goals. The meeting addressed the following items: current budget of the school; changes to the school budget under local control; parents were asked for consultation about the school LCAP goals, actions and services, the school data was shared, and the effectiveness of the school and instructional program was discussed. The meetings comprised of parents whose students came from a variety of student group. Meetings included participants with students from the three specific target groups; low income students, English learners, and foster youth. Finally, they were provided an opportunity to share what they liked about the school, and discussed ways we can improve how well we prepare students to be life-long learners.

On February 6th, 2019, the parents from the PAC/ELAC met and discussed each of the LCAP goals. Progress on the LCAP goals was shared and parents were asked for their input and feedback on future actions and services for relating to the goals. School data was shared and they provided ideas which had an impact on the LCAP. Results from the parent consult is shared in the next section of the LCAP.

We presented the Budget Overview to Parents on June 4th at our last meeting. We also engaged the parents in the process for CSI, using data for discussion around evidence-based solutions aimed at improving our graduation rate.

On April 22nd, 2019, staff, administration, students and parents were invited to discuss progress on the LCAP goals and data at the school site. The administration shared the data and their analysis of each goal, then asked for input from the stakeholders. There was a concerted interest in continuing to make progress on the goals and actions described in the LCAP, such as providing more parent conferences throughout the year and hire additional tutors.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

Results from the Parent Advisory Committee/English Learner Advisory Committee:

Through our meetings and discussions, the following input was provided for the actions and expenditures within our goals. The parents impacted the LCAP by suggesting the following:

- Increased communication on credit completion and data reporting
- Increase college and career-counseling
- Increase online course offerings
- Increase CTE courses offered
- Additional field trips to colleges
- Increase experiential field trips/learning
- Developing additional opportunities for parental involvement

Staff impacted the LCAP by suggesting:

- More professional development for teachers to connect with students
- More professional development to improve teaching practices
- Increase SRS support and follow through for students who have low attendance
- Increase interventions for students low in reading and mathematics
- Bringing more community partnerships to support our students
- More tutor support for all students
- Training on supporting the school's specific English Learner population
- Expand CTE courses
- Increase in CTE course offerings and field opportunities

Students impacted the LCAP by suggesting:

- Increase online course offerings
- Increase CTE courses offered
- Provide extra-curricular or elective opportunities
- Provide student incentives for high attendance or hitting credit goals
- Provide a basic computer workshop/class.
- Increase field trips to colleges and universities.
- College awareness workshops
- Provide opportunities for internships, job training and preparation

Unchanged Goal

Goal 1

Increase student retention.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 1: Basic (Conditions of Learning)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities:

Identified Need:

Students' attendance is often irregular for a variety of reasons. Regular attendance needs to increase, if students are going to be successful in their educational program.

Goal 5

Increase stakeholder involvement.

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 3: Parental Involvement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities:

Identified Need:

Stakeholders are often not actively engaged in the school processes. Parents, students and staff are expected to increase their involvement through a variety of meaningful activities.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds

\$9,948,898.00

Percentage to Increase or Improve Services

33.26%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

2019-2020

Using the FCMAT LCFF calculator, the school has calculated it will receive the amount stated above in Supplemental and Concentration funding under the Local Control Funding Formula. Our student population of English learners, students identified as low income, and Foster Youth far exceeds the 55% unduplicated threshold for using our funds schoolwide. The school will expend these funds according to the identified areas of need for our unduplicated pupils. The largest amount of funding is aimed directly at interventions for attendance issues and academic supports for completing credits, which will lead towards successful graduation. We believe that students who are going to be life-long learners should have a level of computer literacy that will empower them to access and interact with material competently online. We also believe that parents and families should be encouraged to participate in meaningful school activities. These beliefs support our goals and expenditures, the details of which are itemized in this plan.

To better serve our at-risk and highly mobile population, the Local Control and Accountability Plan includes the following possible additional actions and services such as, but not limited to:

- Tutoring is available to every student, even off hours through virtual tutoring
- SGI program increased with Read 180
- SGI program increased with Math 180
- Trauma informed practices, training and implementation
- Additional staff and/or services for socio-emotional support
- Professional development and curriculum for English learner
- The CTE program was built up

- Nutritional services for students as needed
- Additional experiences for student success and leadership
- Early monitoring and interventions for potential graduates
- Transportation for students as needed

The school implements a personalized learning experience for English learners, low income, Foster Youth, and Special Education students that is strategically integrated with their unique academic and socio-emotional needs.

The school has calculated the amount it intends to receive in Supplemental and Concentration funding under the Local Control Funding Formula. These funds are based on the number of English learners, students identified as low income, and Foster Youth. The school's proportional percentage has been calculated and we have demonstrated that we have met the proportional percentage by spending all supplemental and concentration funds allocated, on services for the unduplicated student population as outline in the LCAP. The LCAP demonstrates that funds are principally directed to the needs of our unduplicated students.

LCAP Year: **2018-19**

Estimated Supplemental and Concentration Grant Funds

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

Using the FCMAT LCFF calculator, the school has calculated it will receive \$130,252.00 in Supplemental and Concentration funding under the Local Control Funding Formula. Our student population of English learners, students identified as low income, and Foster Youth far exceeds the 55% unduplicated threshold for using our funds schoolwide. The school will expend these funds according to the identified areas of need for our unduplicated pupils. - Intervention Math 180 with SGI teachers
- Intervention Read 180 with SGI teachers
- English learner curriculum upgrade Edge with myNGconnect
- Increased meal services for students as needed
- Additional experiences for student success and leadership
- Mentoring
- Tutoring
- Increased transportation for students as needed
- Increased technology to support CTE and Online programing

The LCAP demonstrates that funds are principally directed to the needs of our unduplicated students.

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

\$2,647,074

25.10%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

Using the FCMAT LCFF calculator, Assurance Learning Academy has calculated it will receive \$2,647,074 in Supplemental and Concentration funding under the Local Control Funding Formula, and it will use these funds to fully support the achievement of all students including low income, foster youth, and English learner students as determined pursuant to 5 CCR 15496(a)(5). The details of these expenditures are itemized in this plan. It includes additional counseling, mentoring, tutoring, and technology upgrades to serve our at-risk and mobile population.

Assurance Learning Academy has calculated it will receive \$2,647,074 in Supplemental and Concentration funding under the Local Control Funding Formula. With these funds it will increase support and educational services for all students including low income, foster youth, and English Learner students as determined pursuant to 5 CCR 15496(a)(5). Their proportional percentage has been calculated at 25.10% and they have demonstrated they have met the proportional percentage by spending all supplemental and concentration funds allocated, on services for the unduplicated student population as outlined in the LCAP.

Addendum

The Local Control and Accountability Plan (LCAP) and Annual Update Template documents and communicates local educational agencies' (LEAs) actions and expenditures to support student outcomes and overall performance. The LCAP is a three-year plan, which is reviewed and updated annually, as required. Charter schools may complete the LCAP to align with the term of the charter school's budget, typically one year, which is submitted to the school's authorizer. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) (ethnic, socioeconomically disadvantaged, English learners, foster youth, pupils with disabilities, and homeless youth), for each of the state priorities and any locally identified priorities.

For county offices of education, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all students and each LCFF student group funded through the county office of education (students attending juvenile court schools, on probation or parole, or expelled under certain conditions) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services funded by a school district that are provided to students attending county-operated schools and programs, including special education programs.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in Education Code (EC) sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

Charter schools must describe goals and specific actions to achieve those goals for all students and each LCFF subgroup of students including students with disabilities and homeless youth, for each of the state priorities that apply for the grade levels served or the nature of the program operated by the charter school, and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the EC. Changes in LCAP goals and actions/services for charter schools that result from the annual update process do not necessarily constitute a material revision to the school's charter petition.

Plan Summary

The LCAP is intended to reflect an LEA's annual goals, actions, services and expenditures within a fixed three-year planning cycle. LEAs must include a plan summary for the LCAP each year.

When developing the LCAP, enter the appropriate LCAP year, and address the prompts provided in these sections. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous summary information with information relevant to the current year LCAP.

In this section, briefly address the prompts provided. These prompts are not limits. LEAs may include information regarding local program(s), community demographics, and the overall vision of the LEA. LEAs may also attach documents (e.g., the California School Dashboard data reports) if desired and/or include charts illustrating goals, planned outcomes, actual outcomes, or related planned and actual expenditures.

An LEA may use an alternative format for the plan summary as long as it includes the information specified in each prompt and the budget summary table.

The reference to California School Dashboard means the California School Dashboard adopted by the State Board of Education under EC Section 52064.5.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Annual Update

The planned goals, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the previous year's* approved LCAP; in addition, list the state and/or local priorities addressed by the planned goals. Minor typographical errors may be corrected.

* For example, for LCAP year 2017/18 of the 2017/18 – 2019/20 LCAP, review the goals in the 2016/17 LCAP. Moving forward, review the goals from the most recent LCAP year. For example, LCAP year 2020/21 will review goals from the 2019/20 LCAP year, which is the last year of the 2017/18 – 2019/20 LCAP.

Annual Measurable Outcomes

For each goal in the prior year, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in the prior year for the goal.

Actions/Services

Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the actual actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.

Analysis

Using actual annual measurable outcome data, including data from the California School Dashboard, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the data provided in the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Stakeholder Engagement

Meaningful engagement of parents, students, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. EC identifies the minimum consultation requirements for school districts and county offices of education as consulting with teachers, principals, administrators, other school personnel, local bargaining units of the school district, parents, and pupils in developing the LCAP. EC requires

charter schools to consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the LCAP. In addition, EC Section 48985 specifies the requirements for the translation of notices, reports, statements, or records sent to a parent or guardian.

The LCAP should be shared with, and LEAs should request input from, school site-level advisory groups, as applicable (e.g., school site councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet specific goals.

Instructions: The stakeholder engagement process is an ongoing, annual process. The requirements for this section are the same for each year of a three-year LCAP. When developing the LCAP, enter the appropriate LCAP year, and describe the stakeholder engagement process used to develop the LCAP and Annual Update. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous stakeholder narrative(s) and describe the stakeholder engagement process used to develop the current year LCAP and Annual Update.

School districts and county offices of education: Describe the process used to consult with the Parent Advisory Committee, the English Learner Parent Advisory Committee, parents, students, school personnel, the LEA's local bargaining units, and the community to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Charter schools: Describe the process used to consult with teachers, principals, administrators, other school personnel, parents, and students to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Describe how the consultation process impacted the development of the LCAP and annual update for the indicated LCAP year, including the goals, actions, services, and expenditures.

Goals, Actions, and Services

LEAs must include a description of the annual goals, for all students and each LCFF identified group of students, to be achieved for each state priority as applicable to type of LEA. An LEA may also include additional local priorities. This section shall also include a description of the specific planned actions an LEA will take to meet the identified goals, and a description of the expenditures required to implement the specific actions.

School districts and county offices of education: The LCAP is a three-year plan, which is reviewed and updated annually, as required.

Charter schools: The number of years addressed in the LCAP may align with the term of the charter schools budget, typically one year, which is submitted to the school's authorizer. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

New, Modified, Unchanged

As part of the LCAP development process, which includes the annual update and stakeholder engagement, indicate if the goal, identified need, related state and/or local priorities, and/or expected annual measurable outcomes for the current LCAP year or future LCAP years are modified or unchanged from the previous year's LCAP; or, specify if the goal is new.

Goal

State the goal. LEAs may number the goals using the “Goal #” box for ease of reference. A goal is a broad statement that describes the desired result to which all actions/services are directed. A goal answers the question: What is the LEA seeking to achieve?

Related State and/or Local Priorities

List the state and/or local priorities addressed by the goal. The LCAP must include goals that address each of the state priorities, as applicable to the type of LEA, and any additional local priorities; however, one goal may address multiple priorities. ([Link to State Priorities](#))

Identified Need

Describe the needs that led to establishing the goal. The identified needs may be based on quantitative or qualitative information, including, but not limited to, results of the annual update process or performance data from the California School Dashboard, as applicable.

Expected Annual Measurable Outcomes

For each LCAP year, identify the metric(s) or indicator(s) that the LEA will use to track progress toward the expected outcomes. LEAs may identify metrics for specific student groups. Include in the baseline column the most recent data associated with this metric or indicator available at the time of adoption of the LCAP for the first year of the three-year plan. The most recent data associated with a metric or indicator includes data as reported in the annual update of the LCAP year immediately preceding the three-year plan, as applicable. The baseline data shall remain unchanged throughout the three-year LCAP. In the subsequent year columns, identify the progress to be made in each year of the three-year cycle of the LCAP. Consider how expected outcomes in any given year are related to the expected outcomes for subsequent years.

The metrics may be quantitative or qualitative, but at minimum an LEA must use the applicable required metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. For the student engagement priority metrics, as applicable, LEAs must calculate the rates as described in the [LCAP Template Appendix, sections \(a\) through \(d\)](#).

Planned Actions/Services

For each action/service, the LEA must complete either the section “For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement” or the section “For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement.” The LEA shall not complete both sections for a single action.

For Actions/Services Not Contributing to Meeting the Increased or Improved Services Requirement

Students to be Served

The “Students to be Served” box is to be completed for all actions/services except for those which are included by the LEA as contributing to meeting the requirement to increase or improve services for unduplicated students. Indicate in this box which students will benefit from the actions/services by entering “All”, “Students with Disabilities”, or “Specific Student Group(s)”. If “Specific Student Group(s)” is entered, identify the specific student group(s) as appropriate.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must identify "All Schools". If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans". Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering "Specific Schools" and identifying the site(s) where the actions/services will be provided. For charter schools operating only one site, "All Schools" and "Specific Schools" may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

For Actions/Services Contributing to Meeting the Increased or Improved Services Requirement:

Students to be Served

For any action/service contributing to the LEA's overall demonstration that it has increased or improved services for unduplicated students above what is provided to all students (see Demonstration of Increased or Improved Services for Unduplicated Students section, below), the LEA must identify the unduplicated student group(s) being served.

Scope of Service

For each action/service contributing to meeting the increased or improved services requirement, identify the scope of service by indicating "LEA-wide", "Schoolwide", or "Limited to Unduplicated Student Group(s)". The LEA must identify one of the following three options:

- If the action/service is being funded and provided to upgrade the entire educational program of the LEA, enter "LEA-wide."
- If the action/service is being funded and provided to upgrade the entire educational program of a particular school or schools, enter "schoolwide".
- If the action/service being funded and provided is limited to the unduplicated students identified in "Students to be Served", enter "Limited to Unduplicated Student Group(s)".

For charter schools and single-school school districts, "LEA-wide" and "Schoolwide" may be synonymous and, therefore, either would be appropriate. For charter schools operating multiple schools (determined by a unique CDS code) under a single charter, use "LEA-wide" to refer to all schools under the charter and use "Schoolwide" to refer to a single school authorized within the same charter petition. Charter schools operating a single school may use "LEA-wide" or "Schoolwide" provided these terms are used in a consistent manner through the LCAP.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must indicate "All Schools". If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans". Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering “Specific Schools” and identify the site(s) where the actions/services will be provided. For charter schools operating only one site, “All Schools” and “Specific Schools” may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

Actions/Services

For each LCAP year, identify the actions to be performed and services provided to meet the described goal. Actions and services that are implemented to achieve the identified goal may be grouped together. LEAs may number the action/service using the “Action #” box for ease of reference.

New/Modified/Unchanged:

- Enter “New Action” if the action/service is being added in any of the three years of the LCAP to meet the articulated goal.
- Enter “Modified Action” if the action/service was included to meet an articulated goal and has been changed or modified in any way from the prior year description.
- Enter “Unchanged Action” if the action/service was included to meet an articulated goal and has not been changed or modified in any way from the prior year description.
 - If a planned action/service is anticipated to remain unchanged for the duration of the plan, an LEA may enter “Unchanged Action” and leave the subsequent year columns blank rather than having to copy/paste the action/service into the subsequent year columns. Budgeted expenditures may be treated in the same way as applicable.

Note: The goal from the prior year may or may not be included in the current three-year LCAP. For example, when developing year 1 of the LCAP, the goals articulated in year 3 of the preceding three-year LCAP will be from the prior year.

Charter schools may complete the LCAP to align with the term of the charter school’s budget that is submitted to the school’s authorizer. Accordingly, a charter school submitting a one-year budget to its authorizer may choose not to complete the year 2 and year 3 portions of the “Goals, Actions, and Services” section of the template. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

Budgeted Expenditures

For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA’s budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by EC sections 52061, 52067, and 47606.5.

Expenditures that are included more than once in an LCAP must be indicated as a duplicated expenditure and include a reference to the goal and action/service where the expenditure first appears in the LCAP.

If a county superintendent of schools has jurisdiction over a single school district, and chooses to complete a single LCAP, the LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted expenditures are aligned.

Demonstration of Increased or Improved Services for Unduplicated Students

This section must be completed for each LCAP year. When developing the LCAP in year 2 or year 3, copy the "Demonstration of Increased or Improved Services for Unduplicated Students" table and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the current year LCAP. Retain all prior year sections for each of the three years within the LCAP.

Estimated Supplemental and Concentration Grant Funds

Identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner students as determined pursuant to California Code of Regulations, Title 5 (5 CCR) Section 15496(a)(5).

Percentage to Increase or Improve Services

Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. This description must address how the action(s)/service(s) limited for one or more unduplicated student group(s), and any schoolwide or districtwide action(s)/service(s) supported by the appropriate description, taken together, result in the required proportional increase or improvement in services for unduplicated pupils.

If the overall increased or improved services include any actions/services being funded and provided on a schoolwide or districtwide basis, identify each action/service and include the required descriptions supporting each action/service as follows.

For those services being provided on an LEA-wide basis:

- For school districts with an unduplicated pupil percentage of 55% or more, and for charter schools and county offices of education: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities.
- For school districts with an unduplicated pupil percentage of less than 55%: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the services are **the most effective use of the funds to** meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience or educational theory.

For school districts only, identify in the description those services being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis:

- For schools with 40% or more enrollment of unduplicated pupils: Describe how these services are **principally directed to** and **effective in** meeting its goals for its unduplicated pupils in the state and any local priorities.
- For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these services are **principally directed to** and how the services are **the most effective use of the funds to** meet its goals for English learners, low income students and foster youth, in the state and any local priorities.

State Priorities

Priority 1: Basic Services addresses the degree to which:

- A. Teachers in the LEA are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- B. Pupils in the school district have sufficient access to the standards-aligned instructional materials; and
- C. School facilities are maintained in good repair.

Priority 2: Implementation of State Standards addresses:

- A. The implementation of state board adopted academic content and performance standards for all students, which are:
 - a. English Language Arts – Common Core State Standards (CCSS) for English Language Arts
 - b. Mathematics – CCSS for Mathematics
 - c. English Language Development (ELD)
 - d. Career Technical Education
 - e. Health Education Content Standards
 - f. History-Social Science
 - g. Model School Library Standards
 - h. Physical Education Model Content Standards
 - i. Next Generation Science Standards
 - j. Visual and Performing Arts
 - k. World Language; and
- B. How the programs and services will enable English learners to access the CCSS and the ELD standards for purposes of gaining academic content knowledge and English language proficiency.

Priority 3: Parental Involvement addresses:

- A. The efforts the school district makes to seek parent input in making decisions for the school district and each individual school site;
- B. How the school district will promote parental participation in programs for unduplicated pupils; and
- C. How the school district will promote parental participation in programs for individuals with exceptional needs.

Priority 4: Pupil Achievement as measured by all of the following, as applicable:

- A. Statewide assessments;
- B. The Academic Performance Index;
- C. The percentage of pupils who have successfully completed courses that satisfy University of California (UC) or California State University (CSU) entrance requirements, or programs of study that align with state board approved career technical educational standards and framework;
- D. The percentage of English learner pupils who make progress toward English proficiency as measured by the California English Language Development Test (CELDT);
- E. The English learner reclassification rate;
- F. The percentage of pupils who have passed an advanced placement examination with a score of 3 or higher; and
- G. The percentage of pupils who participate in, and demonstrate college preparedness pursuant to, the Early Assessment Program, or any subsequent assessment of college preparedness.

Priority 5: Pupil Engagement as measured by all of the following, as applicable:

- A. School attendance rates;
- B. Chronic absenteeism rates;
- C. Middle school dropout rates;
- D. High school dropout rates; and
- E. High school graduation rates;

Priority 6: School Climate as measured by all of the following, as applicable:

- A. Pupil suspension rates;
- B. Pupil expulsion rates; and
- C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness.

Priority 7: Course Access addresses the extent to which pupils have access to and are enrolled in:

- A. S broad course of study including courses described under *EC* sections 51210 and 51220(a)-(i), as applicable;
- B. Programs and services developed and provided to unduplicated pupils; and
- C. Programs and services developed and provided to individuals with exceptional needs.

Priority 8: Pupil Outcomes addresses pupil outcomes, if available, for courses described under *EC* sections 51210 and 51220(a)-(i), as applicable.

Priority 9: Coordination of Instruction of Expelled Pupils (COE Only) addresses how the county superintendent of schools will coordinate instruction of expelled pupils.

Priority 10. Coordination of Services for Foster Youth (COE Only) addresses how the county superintendent of schools will coordinate services for foster children, including:

- A. Working with the county child welfare agency to minimize changes in school placement
- B. Providing education-related information to the county child welfare agency to assist in the delivery of services to foster children, including educational status and progress information that is required to be included in court reports;
- C. Responding to requests from the juvenile court for information and working with the juvenile court to ensure the delivery and coordination of necessary educational services; and
- D. Establishing a mechanism for the efficient expeditious transfer of health and education records and the health and education passport.

Local Priorities address:

- A. Local priority goals; and
- B. Methods for measuring progress toward local goals.

APPENDIX A: PRIORITIES 5 AND 6 RATE CALCULATION INSTRUCTIONS

For the purposes of completing the LCAP in reference to the state priorities under *EC* sections 52060 and 52066, as applicable to type of LEA, the following shall apply:

(a) “Chronic absenteeism rate” shall be calculated as follows:

- (1) The number of K-8 students who were absent 10 percent or more of the school days excluding students who were:
 - (A) enrolled less than 31 days
 - (B) enrolled at least 31 days but did not attend at least one day
 - (C) flagged as exempt in the district attendance submission. K-8 students are considered to be exempt if they:
 - (i) are enrolled in a Non-Public School
 - (ii) receive instruction through a home or hospital instructional setting
 - (iii) are attending a community college full-time.
- (2) The number of students who meet the enrollment requirements.
- (3) Divide (1) by (2).

(b) “High school dropout rate” shall be calculated as follows:

- (1) The number of cohort members who dropout by the end of year 4 in the cohort where “cohort” is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
- (2) The total number of cohort members.
- (3) Divide (1) by (2).

(c) “High school graduation rate” shall be calculated as follows:

(1) For a 4-Year Cohort Graduation Rate:

- (A) The number of students in the cohort who earned a regular high school diploma by the end of year 4 in the cohort.
- (B) The total number of students in the cohort.
- (C) Divide (1) by (2).

(2) For a Dashboard Alternative Schools Status (DASS) Graduation Rate:

- (A) The number of students who either graduated as grade 11 students or who earned any of the following:
 - (i) a regular high school diploma
 - (ii) a High School Equivalency Certificate
 - (iii) an adult education diploma
 - (iv) a Certificate of Completion and was eligible for the California Alternative Assessment if under the age of 20.
- (B) The number of students in the DASS graduation cohort.
- (C) Divide (1) by (2).

(d) “Suspension rate” shall be calculated as follows:

- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 – June 30).
- (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).
- (3) Divide (1) by (2).

(e) “Expulsion rate” shall be calculated as follows:

- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 – June 30).
- (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

(3) Divide (1) by (2).

Sections 6312 and 6314.

APPENDIX B: GUIDING QUESTIONS

Guiding Questions: Annual Review and Analysis

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to EC Section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific school sites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Guiding Questions: Stakeholder Engagement

- 1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in *EC* Section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to *EC* sections 52062, 52068, or 47606.5, as applicable, including engagement with representatives of parents and guardians of pupils identified in *EC* Section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 *CCR* Section 15495(a)?

- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Guiding Questions: Goals, Actions, and Services

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning": Basic Services (Priority 1), the Implementation of State Standards (Priority 2), and Course Access (Priority 7)?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes": Pupil Achievement (Priority 4), Pupil Outcomes (Priority 8), Coordination of Instruction of Expelled Pupils (Priority 9 – COE Only), and Coordination of Services for Foster Youth (Priority 10 – COE Only)?
- 3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement": Parental Involvement (Priority 3), Pupil Engagement (Priority 5), and School Climate (Priority 6)?
- 4) What are the LEA's goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual school sites been evaluated to inform the development of meaningful district and/or individual school site goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for unduplicated pupils as defined in *EC* Section 42238.01 and groups as defined in *EC* Section 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual school sites?
- 10) What information was considered/reviewed for subgroups identified in *EC* Section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to *EC* Section 52052, to specific school sites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

Prepared by the California Department of Education, January 2019
